**Nigeria.**

Safety professional with more than 15 years of combined experience in light/heavy construction process, Civil construction, and implementation of data-driven Safety, Health, and Environmental (EHS) management systems. My core competencies include implementing low-cost integration of risk assessments into workflows to enhance the team's efforts at identifying hazards, environmental aspects and increase awareness on compliance with oil services and port/harbor site HSE procedures. I have significant accomplishments in team building, strategic planning, coordination and interface with clients, government regulatory agencies.
